

### High Speed Production Roundsling Machinery

### Tube Contraction Machine Pro

**The TCM Pro** installs a wide range of seamless cover widths and thicknesses onto assembly tubes quickly and efficiently without damaging the cover material.

**The TCM Pro** processes a wide range of covers compatible with the range of sling capacities and lengths produced on the **RSM Pro**.

**The TCM Pro** saves time and the costs associated with preparing covers manually.

TCM Pro	Technical Data
Standard Range of Sling Capacities (working load limits)	1 - 28 Tonnes (Design Factor 7:1)
Standard Range of Sling Lengths	1 - 18 meters
Dimensions	L: 1067 cm x W: 96.5 cm x H: 117 cm
Weight	580 kgs
Standard Power Supply	220V, 3-phase, 50 Hz*

\* Other requirements available upon request.
